# INDEX

	Pages		Pages
January	1-32	July	201-232
February	33-64	August	233-264
March	65-96	September	265-296
April	97-128	October	297-324
May	129-160	November	325-356
June	161-200	December	357-388

Accuracy of forecasting night minimum air temperatures by the method due to Saunders; L. P. Steele, P. A. J. Stroud and S. E. Virgo, 107	Chuter, I. H.; The comparison of subjective and objective upper air forecasts for aviation (Part I), 19, <i>letter</i> , 127; (Part II), 49
Air-land interaction, fog, atmospheric opacity-a miscellany; G. D. Robinson, 190	Clear-air turbulence over the North Atlantic; some notably turbulent periods; J. C. Lennie, 9
Analysis of monthly mean pressure patterns near the British Isles, with possible applications to seasonal forecasting; R. F. M. Hay, 357	Cloud physics research in Czechoslovakia; P. R. Jonas, 259
Averages of earth temperature at depths of 30 cm and 122 cm for the United Kingdom, 1931-60; <i>official publication</i> , 95	Cochrane, J.; A relationship between minimum air temperatures and duration of frost in late spring, 138
Bannon, J. K.; awarded I.S.O., 292	Collingbourne, R. H.; Kew — the National Radiation Centre, 223, <i>photographs between</i> 216, 217
Barrell, H.; Kew Observatory and the National Physical Laboratory, 171, <i>photographs between</i> 180, 181	Collison, P. and Ratcliffe, R. A. S.; Forecasting rainfall for the summer season in England and Wales, 33
Bartlett, J. T.; Kinetics of phase transitions of water in the atmosphere, (L. G. Kachurin and V. G. Morachevskii), <i>review</i> , 28	Comparison of subjective and objective upper air forecasts for aviation; I. H. Chuter, (Part I) 19, <i>letter</i> , 127; (Part II), 49
Bendelow, V. C.; A determination of the albedo of Morecambe Bay north of a line from Aldingham to Bare, 305, <i>photograph facing</i> 311	Corfield, G. A. and Nicholls, M. J.; Forecasting the movement of isalobars into eastern England, 309
Bleasdale, A. and Rider, N. E.; Rain, wind and the aerodynamic characteristics of rain-gauges, <i>letter</i> , 126	Craddock, J. M.; Graphical rational patterns, a new approach to graphical presentation of statistics (Roberto Bachi), <i>review</i> , 231
Brady, W. R.; A method of deriving representative temperature profiles, including the tropopause, from the 3-level forecast model, 373	Crome, D. K. E.; <i>obituary</i> , 159
Bridge, G. C.; The record-breaking rainfall in south-west England on 28-29 July 1969, 364	Davis, N. E.; Some relationships between the 100-millibar chart and surface weather, 274
Briggs, J.; Visibility variations at London/Heathrow Airport, 135	Davis, N. E.; The variation of very low cloud base with time and distance and with height, 351
Briggs, J. and Harker, J. A.; Estimates of the duration of short-period rainfall rates based on clock-hour values, 246	De la Mothe, P. D. and Wright, P. B.; The onset of the Indian south-west monsoon and extratropical 500-mb trough and ridge patterns over Europe and Asia, 145
British radiosonde: its debt to Kew; D. N. Harrison, 186	Determination of the albedo of Morecambe Bay north of a line from Aldingham to Bare; V. C. Bendelow, 305, <i>photograph facing</i> 311
Brohan, C. P., <i>obituary</i> , 324	Development of rocket and satellite experiments at Kew Observatory, 1959-61; K. H. Stewart, 195
Browning, K. A.; Formation of precipitation and modification of hail processes (G. K. Sulakvelidze, N. Sh. Bibilashvili and V. F. Lapcheva), <i>review</i> , 61	Director-General of the Meteorological Office; Foreword, ( <i>Kew Observatory Bicentenary issue</i> ), 161
Browning, K. A.; Thirteenth Radar Meteorology Conference, 120	Distribution of precipitation and the variation of visibility in precipitation; W. D. Summersby, 252
Bull, G. A.; Statistics in the computer age (J. M. Craddock), <i>review</i> , 262	Diurnal variation of the incidence of monsoon rainfall over the Sudan; D. E. Pedgley, (Part I), 97; (Part II), 129
Bull, G. A.; Die Wissenschaft vom Wetter (H. Reuter), <i>review</i> , 197	Dobson, F. R.; Environmental study (J. B. Rigg), <i>review</i> , 158
